ALMECH FABS PRIVATE LIMITED

Who are we

Almech Fabs began its operations in 1974. Since our establishment, we have seen decades of successful projects. Presently, we are in a situation where we do undertake all types of fabrication works at ease.

Being specialized in Bucket Elevators Assembly, Wind shifting Assembly, Cartridge Filter Assembly, Fan casing Assembly, Platform with railings, Structures, Hoppers, and Cyclones, we deliver the best in a very limited period.

Our Infrastructure:

Harbouring ourselves with a vast space of 10000 square feet, we possess 5 and 3-ton capacity cranes that are working multiple shifts. It is important to note that, we do have a Kirloskar make generator for 24 hour backup .

We have added an additional facility (Unit No.2) of 6000sq.ft , which is situated 2+ kms away from our Unit No.1. This would support us for additional work loads.

Machinery:

As per the standard procedure, we are well equipped with all the needed hardcore machinery that helps us in the manufacturing of needed subparts that our clientele specify.

Some of the important Machinery that we possess:

1. Hydraulic Shearing machine with capacity : 2500 x 6mm thickness.
2. Press brake with capacity : 2500 x 4mm thickness bending
3. Power Press -10 ton capacity
4. Spot welding machine
